¹ Refer to Supplemental Financial Information accompanying this press release for a reconciliation of GAAP to non-GAAP numbers and for reconciliation of adjusted EBITDA for the second quarter 2023 ended June 30, 2023.

“Our second quarter results were disappointing as a result of lower demand for Enterprise products caused by lower order volumes from distributors and high channel inventories, and a challenging macroeconomic environment, especially in EMEA,” said Atul Bhatnagar. “The company has recently initiated a cost reduction plan to increase profitability ahead of our next phase of growth which includes the FCC’s anticipated approval of 6 GHz spectrum products, the ramp of our 28 GHz cnWave 5G fixed, 60 GHz cnWave technologies for service providers, and the expansion of our fiber-based solutions.”

Bhatnagar continued, “We remain confident that new product cycles for next generation multi-gigabit fixed wireless and fiber products, increased government funding in North America, defense, and a return to growth for our Enterprise business will drive future growth.”

Cambium also announced that Morgan Kurk, most recently a senior executive at Honeywell International, and prior to that, the executive vice president broadband market segment leader and chief technology officer at CommScope, has been appointed president and chief executive officer, effective immediately. Mr. Kurk has also joined the company’s board of directors. Atul Bhatnagar is stepping down as the company’s CEO but will continue to serve as a member of the company’s board of directors.

“Cambium has established itself as a leader in the fixed wireless broadband and wireless networking categories and has achieved many product innovations since its spin-off from Motorola in 2011. We could not be more thrilled to have Morgan lead Cambium in the next phase of its journey. As a proven industry leader with a three-decade track record of delivering outstanding results, Morgan brings the right vision, experience and energy to drive growth at the company for years to come,” said Robert Amen, Cambium’s chairman. “We also want to acknowledge and thank Atul for his many years of leadership in establishing a culture of growth, integrity and innovation and in leading Cambium to where it is today.”

“Cambium's technology, blue-chip customers, and market position present significant opportunities to scale. As CEO, my focus will be on continuing to build shareholder value by fostering a culture of operational excellence and innovation, and driving profitable growth in a highly dynamic market,” said Mr. Kurk.

“I am extremely proud of our entire Cambium team and what we have accomplished over the past ten years. I want to express deep gratitude to Team Cambium for their unwavering support all these years in creating a highly innovative growth company. I look forward to assisting Morgan through a successful transition and continuing to serve our shareholders as a director,” said Mr. Bhatnagar.

Revenues of \$59.5 million for the second quarter 2023 decreased \$9.8 million year-over-year primarily as a result of lower revenues for Enterprise products as a result of higher channel inventories and slowing European economies, and decreased Point-to-Multi-Point revenues due to less demand from service providers ahead of the ramp of product transitions to new technologies, partially offset by record Point-to-Point revenues due to higher defense revenues. Revenues for the second quarter 2023 decreased by \$17.9 million compared to \$77.4 million for the first quarter 2023, primarily due to lower Enterprise revenues partially offset by higher Point-to-Point and Point-to-Multi-Point revenues.

GAAP gross margin for the second quarter 2023 was 49.1%, compared to 48.3% for the second quarter 2022, and 51.2% for the first quarter 2023. GAAP operating loss for the second quarter 2023 was \$2.7 million, compared to operating income of \$2.7 million for the second quarter 2022, and \$5.6 million for the first quarter 2023. GAAP net loss for the second quarter 2023 was \$2.6 million, or net loss of \$0.10 per diluted share, compared to net income of \$2.3 million, or net earnings of \$0.08 per diluted share for the second quarter 2022, and net income of \$4.3 million, or net earnings of \$0.15 per diluted share for the first quarter 2023.

Non-GAAP gross margin for the second quarter 2023 was 50.3%, compared to 48.9% for the second quarter 2022, and 52.1% for the first quarter 2023. Non-GAAP operating income for the second quarter 2023 was \$1.6 million, compared to \$6.3 million for the second quarter 2022, and \$9.4 million for the first quarter 2023. Non-GAAP net income for the second quarter 2023 was \$0.9 million, or a net income of \$0.03 per diluted share, compared to net income of \$5.0 million, or \$0.18 per diluted share for the second quarter 2022, and net income of \$6.8 million, or \$0.24 per diluted share, for the first quarter 2023. For the second quarter 2023, adjusted EBITDA was \$2.8 million or 4.7% of revenues, compared to adjusted EBITDA of \$7.8 million or 11.3% of revenues for the second quarter 2022, and \$10.4 million or 13.4% of revenues for the first quarter 2023.

Net cash used in operating activities was \$4.5 million for the second quarter 2023, compared to net cash provided by operating activities of \$10.0 million for the second quarter 2022, and net cash used in operating activities of \$6.0 million for the first quarter 2023. Cash totaled \$32.0 million as of June 30, 2023, \$14.0 million lower than June 30, 2022.

Cautionary Note Regarding Forward-Looking Statements

This release contains certain forward-looking statements within the meaning of the federal securities laws, including statements concerning our expected next quarter revenues, net income and cash. All statements other than statements of historical fact contained in this document, including statements regarding our future results of operations and financial position, business strategy and plans and objectives of management for future operations, are forward-looking statements. These statements involve known and unknown risks, uncertainties and other important factors that may cause our actual results, performance, or achievements to be materially different from any future results, performance or achievements expressed or implied by the forward-looking statements.

The forward-looking statements in this document are only predictions. We have based these forward-looking statements largely on our current expectations and projections about future events and financial trends that we believe may affect our business, financial condition and results of operations. These forward-looking statements speak only as of the date of this document and are subject to a number of risks, uncertainties and assumptions including those described in the "Risk factors" section of our 2022 Annual Report on Form 10-K filed with the Securities and Exchange Commission on February 27, 2023 and Form 10-Q filed on May 9, 2023. Because forward-looking statements are inherently subject to risks and uncertainties, some of which cannot be predicted or quantified, you should not rely on these forward-looking statements as predictions of future events. The events and circumstances reflected in our forward-looking statements may not be achieved or occur and actual results could differ materially from those projected in the forward-looking statements. Some of the key factors that

could cause actual results to differ from our expectations include: the unpredictability of our operating results; the impact of the global shortage of certain components including semiconductor chipsets; the constraint in global shipping and logistics; our inability to predict and respond to emerging technological trends and network operators' changing needs; the impact of political tensions between the United States and other countries such as the war between Russia and Ukraine and tensions with China; our reliance on third-party manufacturers, which subjects us to risks of product delivery delays and reduced control over product costs and quality; our reliance on distributors and value-added resellers for the substantial majority of our sales; the inability of our third-party logistics and warehousing providers to deliver products to our channel partners and network operators in a timely manner; the quality of our support and services offerings; our or our distributors' and channel partners' inability to attract new network operators or sell additional products to network operators that currently use our products; the technological complexity of our products, which may contain undetected hardware defects or software bugs; our channel partners' inability to effectively manage inventory of our products, timely resell our products or estimate expected future demand; our inability to manage our growth and expand our operations; unpredictability of sales and revenues due to lengthy sales cycles; our inability to maintain an effective system of internal controls, produce timely and accurate financial statements or comply with applicable regulations; our reliance on the availability of third-party licenses; risks associated with international sales and operations; and current or future unfavorable economic conditions, both domestically and in foreign markets.

Except as required by applicable law, we do not plan to publicly update or revise any forward-looking statements contained herein, whether as a result of any new information, future events or otherwise.

Use of non-GAAP (Adjusted) Financial Measures

In addition to providing financial measurements based on generally accepted accounting principles in the United States (GAAP), we provide additional financial metrics that are not prepared in accordance with GAAP (non-GAAP), including Adjusted EBITDA, non-GAAP gross margin, non-GAAP operating expenses, non-GAAP operating income and non-GAAP operating margin, non-GAAP pre-tax income, non-GAAP provision for income taxes, non-GAAP net income, and non-GAAP fully weighted basic and diluted shares. Management uses these non-GAAP financial measures, in addition to GAAP financial measures, to understand and compare operating results across accounting periods, for financial and operational decision making, for planning and forecasting purposes, to measure executive compensation and to evaluate our financial performance. We believe that these non-GAAP financial measures help us to identify underlying trends in our business that could otherwise be masked by the effect of the expenses that we exclude in the calculations of the non-GAAP financial measures.

We believe that these financial measures reflect our ongoing business in a manner that allows for meaningful comparisons and analysis of trends in the business and provides information to investors and others in understanding and evaluating our operating results, enhancing the overall understanding of our past performance and future prospects. Although the calculation of non-GAAP financial measures may vary from company to company, our detailed presentation may facilitate analysis and comparison of our operating results by management and investors with other peer companies, many of which use similar non-GAAP financial measures to supplement their GAAP results in their public disclosures. These non-GAAP financial measures are discussed below.

Adjusted EBITDA is defined as net income as reported in our consolidated statements of income excluding the impact of (i) interest expense (income), net; (ii) income tax provision (benefit); (iii) depreciation and amortization expense; (iv) nonrecurring legal expenses, (v) share-based compensation expense, (vi) one-time costs, and (vii) restructuring expenses. EBITDA is widely used by securities analysts, investors and other interested parties to evaluate the profitability of companies. EBITDA eliminates potential differences in performance caused by variations in capital structures (affecting net finance costs), tax positions (such as the availability of net operating losses against which to relieve taxable profits), the cost and age of tangible assets (affecting relative depreciation expense) and the extent to which intangible assets are identifiable (affecting relative amortization expense). We adjust EBITDA to also exclude nonrecurring legal expenses since this is one-time in nature and does not reflect our ongoing operations. We adjust EBITDA for share-based compensation expense which is a non-cash expense that varies in amount from period to period and is dependent on market forces that are often beyond Cambium Networks' control. As a result, management excludes this item from Cambium Networks' internal operating forecasts and models. We also adjust EBITDA to exclude one-time costs and restructuring expenses and secondary offering expenses as these relate to events outside of the ordinary course of continuing operations and to provide a more accurate comparison of our ongoing business results.

Non-GAAP gross margin, non-GAAP operating expenses, non-GAAP operating income and non-GAAP operating margin, non-GAAP effective tax rate and non-GAAP net income are used as a supplement to our unaudited condensed consolidated financial statements presented in accordance with GAAP. We believe these non-GAAP measures are the most meaningful for period-to-period comparisons because they exclude the impact of share-based compensation expense, restructuring expenses and secondary offering expenses, nonrecurring legal expenses, write-down of debt issuance costs upon prepayment of debt,

amortization of acquired intangibles, and amortization of capitalized software costs as we do not consider these costs and expenses to be indicative of our ongoing operations.

Share-based compensation expense and associated employment taxes paid are excluded. Management may issue different types of awards, including share options, restricted share awards and restricted share units, and excludes the associated expense in this non-GAAP measure. Share-based compensation expense is a non-cash expense that varies in amount from period to period and is dependent on market forces that are often beyond Cambium Networks control while the associated employment taxes are cash-based expenses that vary in amount from period-to-period and are dependent on market forces as well as jurisdictional tax regulations that are often beyond Cambium Networks control.

Amortization of acquired intangibles includes customer relationships and is excluded since these are not indicative of continuing operations.

Amortization of capitalized software costs include capitalized research and development activities amortized over their useful life and included in cost of revenues and are excluded since these are not indicative of continuing operations.

Restructuring expenses consist primarily of severance costs for employees which are not related to future operating expenses. Cambium Networks excludes these expenses since they result from an event that is outside the ordinary course of continuing operations. Excluding these charges permits more accurate comparisons of Cambium Networks ongoing business results.

Our non-GAAP tax adjustments include the tax impacts from share-based compensation expense including excess or decremental tax benefits available to the company that are recorded when incurred. Cambium Networks excludes these amounts to more closely approximate the company's ongoing effective tax rate after adjusting for one-time or unique non-recurring items. The associated non-GAAP effective tax rate is also applied to the gross amount of non-GAAP adjustments for the purpose of calculating non-GAAP net income in total and on a per-share basis. This approach is designed to enhance the ability of investors to understand the company's tax expense on its current operations, provide improved modeling accuracy, and substantially reduce fluctuations caused by GAAP adjustments which may not reflect actual cash tax expense.

Non-GAAP fully weighted basic and diluted shares are shown as outstanding during the entire period presented and include dilutive shares if their effect on earnings per share is dilutive. We also use non-GAAP fully weighted basic and diluted shares to provide more comparable per-share results across periods.

These non-GAAP financial measures do not replace the presentation of our GAAP financial results and should only be used as a supplement to, not as a substitute for, our financial results presented in accordance with GAAP. There are limitations in the use of non-GAAP measures because they do not include all the expenses that must be included under GAAP and because they involve the exercise of judgment concerning exclusions of items from the comparable non-GAAP financial measure. In addition, other companies may use other measures to evaluate their performance, or may calculate non-GAAP measures differently, all of which could reduce the usefulness of our non-GAAP financial measures as tools for comparison. We present a "Reconciliation of GAAP Financial Measures to Non-GAAP Financial Measures" in the tables below.
